Federal Aviation Administration – Petition for Renewal of Exemption Number 10012F

The Army Aviation Heritage Foundation and Flying Museum, Inc. (AAHF) currently holds a Living History Flight Experience exemption # 10012F. That exemption terminates on March 31, 2022.

The AAHF requests that the FAA exemption be renewed.

The AAHF requests an amendment to the expiration date so that the exemption will expire two years from 12/31/2021. The AAHF requests this change in expiration date to a time period when typical LHFE operations are likely not occurring. This will allow the AAHF confidence in scheduling LHFE events in the early spring.

There has been no change in the conditions and reasons relative to the Public Interest and Safety (ELoS) which were the basis for issuance of the original exemption.

Sincerely,

Steve Wages  
Director of Operations
